## LA PARED FUERTEVENTURA - SPAIN

### DESCRIPTION

We join the red Canaria de Senderos paths all the way to Cardón.

A dirt track starts this epic trail with 7,5 km long climb up to 279 m above sea level.

After some tarmac running you enter red path again all the way to Cardón.

This trail is breath taking going all the way through deserted volcanic mountains. Bring a camera!

A mix of dirt roads and some asphalt trough agricultural Fuerteventura. Then dirt roads, farm houses and locals. Some barking chained dogs along the way but as long as their chained you don't have to dig after your sprint skills.

Approx. 70 % trail and dirt track. Technical for 500 meters in the beginning.

The trail is suitable for both trail running and mountain biking. Download the gpx file to your watch as this route is not marked all the way. Easy to find with gps, as all tracks are clear and visible.

Bring water and energy as the only restaurant on the course might be closed.

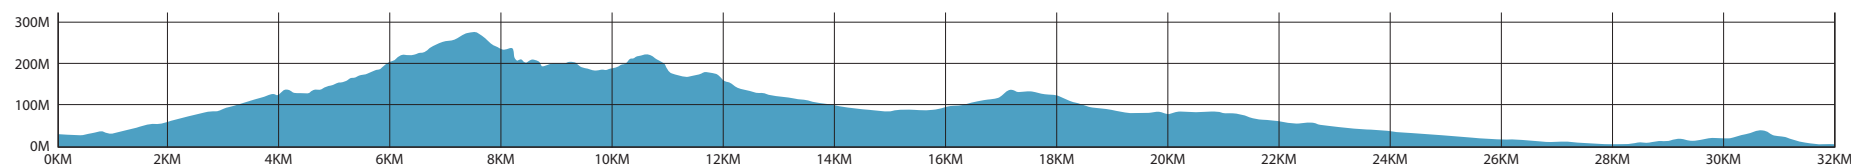

DISTANCE: 32.0KM

TOTAL CLIMB: 341M

LOWEST POINT: 11M

HIGHEST POINT: 279M
